An AAR Company

AI-Powered MRO
The Trax Vision

Orchestrated Agentic AI Across MRO Domains

Trax USA Corp | AI Roadmap 2026

The MRO Challenge

Trax

Manual Bottlenecks

Procurement, planning & scheduling still heavily reliant on manual labor and tribal knowledge

Data Overload

Technicians and planners overwhelmed by disparate data sources across maintenance operations

Reactive Operations

Most MRO decisions are reactive — firefighting AOGs and disruptions instead of preventing them

Scaling Constraints

Growing fleet demands outpace ability to hire, train and retain skilled personnel

The Vision: Agentic AI Ecosystem

Orchestrated AI agents working across every MRO domain — from procurement to planning to execution

AI Development Lifecycle

1. **Initial Concept**
   Research AI capabilities for MRO applications
2. **Use Case Discovery**
   Map concepts to potential use cases with customers
3. **Proof of Concept**
   Build POCs to validate AI can support the use case
4. **Minimum Viable Product**
   Productize POCs into tangible products for customers
5. **Product Release**
   Formal release with iterative improvements as AI evolves

The Agent Portfolio

Trax

Trusted Supplier Network

Procurement Agent

7 Use Cases

- Deal Recommendations
- Negotiation
- Auto Ordering
- Exception Handling
- Demand Consolidation
- Order Consolidation
- Vendor Rating

MxPlanner Pro

Planning Agent

7 Use Cases

- Schedule Optimizer
- Smart Work Pack
- AOG Replanning
- NR Forecasting
- Defect Forecasting
- Task Forecasting
- Aircraft Utilization

Sherlock

Decision Support Agent

5 Use Cases

- Defect Fix Steps
- Similar Defect Search
- Parts & Tools Check
- Safety & Regulatory
- Troubleshooting Path

Resource Planner

Resource Optimizer Agent

5 Use Cases

- Labor Matching
- Tool & Bay Assignment
- Rebalancing Engine
- Simulation & Forecast
- Planner Alerts

Trusted Supplier Network

Intelligent Procurement Agent | 7 Use Cases

- **Deal Recommendations** — Analyze quotes and recommend purchase or continued sourcing
- **Negotiation** — Negotiate deal price with vendors based on existing quotes
- **Auto Ordering** — Automated purchase order generation for approved items
- **Exception Handling** — Detect and resolve procurement anomalies
- **Demand Consolidation** — Aggregate demand across facilities
- **Order Consolidation & Splitting** — Optimize order grouping for cost efficiency
- **Vendor Rating & Optimization** — Score and rank suppliers for best value

MxPlanner Pro (MxPP)

Intelligent Planning Agent | 7 Use Cases

- **Constraint-Based Schedule Optimizer** — Balances labor, parts, tools and regulatory constraints
- **Smart Work Pack** — Auto-generates optimized work packages from task dependencies
- **AOG & Disruption Replanning Bot** — Real-time schedule recovery for aircraft-on-ground events
- **NR Analysis Forecasting** — Predicts non-routine findings based on historical patterns
- **Predictive Defect Forecasting** — Anticipates defects before they occur using fleet data
- **Predictive Task Forecasting Engine** — Projects upcoming task demand across the fleet
- **Dynamic Aircraft Utilization Engine** — Optimizes aircraft assignment for maximum availability

Sherlock

Intelligent Decision Support Agent | 5 Use Cases

- **Show Steps to Fix This Defect** — Step-by-step repair guidance from technical manuals and fleet history
- **Find Similar Past Defects** — Search historical records for matching defects and what resolved them
- **Check Parts & Tools Availability** — Real-time validation of parts and tooling for the repair task
- **Safety, MEL & Regulatory Constraints** — Surfaces applicable safety rules, MEL limits and regulatory requirements
- **Troubleshooting Path When Time Is Critical** — Accelerated diagnostic workflow for AOG and time-critical situations

Resource Planner Agent

Intelligent Resource Optimizer Agent | 5 Use Cases

- **Labor Resource Matching** — Match tasks to technicians by skill set, shift availability and certifications
- **Tool & Bay Slot Assignment** — Validate tool availability and assign hangar/line slots to avoid conflicts
- **Intelligent Rebalancing Engine** — Detect over/under-assignment and redistribute workload across shifts
- **Simulation & Forecasting** — Model resource scenarios to predict shortages before they happen
- **Planner Integration & Alerts** — Real-time alerts to planners when resource conflicts arise

2026 Roadmap

Trax

Q1 2026

- eMRO Agent Core v1.0
- ATA Classification Agent v1.0
- Sherlock Beta

Q2 2026

- Trusted Supplier Network v1.0
- Mx Planner Pro - MVP
- Resource Planner - Beta

Q3 2026

- Sherlock v1.0
- MxPlanner Pro Beta
- MRO Agent Codex v1.0

Q4 2026

- Resource Planner v1.0
- Trusted Supplier Network v1.1
- Full Agent Orchestration
- Mx Planner Pro v1.0

Partnerships & Innovation

Trax

Technology Partners

- **PTC Servigistics** — Inventory optimization
- **Rolls-Royce** — Engine health monitoring
- **Aerostrat** — Long-term fleet planning
- **Aeroxchange** — Marketplace integration

Customer Innovation

- Customer Roadmap co-creation
- Feature Set Voting
- Customer Discussion Boards
- Regular Webinars
- Co-Development Programs
- Product Board Seats

Research & Development

- Drone Inspections
- Dent Mapping AI
- Remote Inspection Agents
- Advanced Inventory Optimization

Trax

WE ARE THE **WORLD'S LEADING** PROVIDER

OF AVIATION MAINTENANCE, MOBILE AND CLOUD SOLUTIONS

New technology
eMobility apps

Over 27 years of experience

100% regulatory compliance

Largest customer base in the world

Competitive advantage

Real time business decisions
Cost control
Return on investment

*We are committed to ensuring **Safety**, delivering high standards of **Quality**, and protecting **Compliance***
